## LANSING WILL EXPLAIN TREATY WITH THE DANES

SOME SENATORS THINK AMOUNT TO BE PAID ISLANDS IS EXCESSIVE

Washington, Aug. 18.—Secretary Lansing was asked to appear before the Senate Foreign Relations Committee to answer questions relating to the treaty for purchase of the Danish West Indies. The committee at its first meeting to consider the treaty decided a personal explanation from the Secretary would be necessary to satisfy some of the members regarding details in the islands and to the purchase price.

Some of the Senators on the committee, although they favor purchasing the islands, believe the \$25,000,000 asked by Denmark exorbitant as in 1902 she offered to sell them for \$5,000,000.

Senator Stone, chairman of the committee said the treaty probably would not be reported to the senate for ratification until next week.

### New Election Discussed.

Copenhagen, Aug. 18.—The Landthing, the upper house of the Danish Parliament, met today as a committee of the whole to consider the treaty providing for the sale of the Danish West Indies to the United States and forty-seven of the sixty-one members present placed themselves in favor of the order of the day, stating that the sale can not be settled before election for both houses of Parliament have been held.

The situation has been further complicated by a proposal from Premier Zahle that the government resign and help in the formation of a cabinet representing the various parties. This proposal, if carried out, would avoid the holding of elections as advocated. Success is certain, as the Socialists have hitherto declined to be represented in a cabinet with members of the other parties.

Nothing can be settled at present, as many of the members of the Folkething are not in town.

An influential member of the Radical government party explained that the government's offer to resign did not mean that it feared the result of an election, but that if elections were held ratification of the sale would be delayed three months or perhaps more.

## USE ICE IN KANSAS TO ATTRACT FISH TO HOOKS

Smith, Center, Kan., Aug. 18.—Is using chunks of ice in the public waters of Kansas to attract fish that they may be more readily caught with hook and line a violation of the game law? That is a question that is bothering the deputy game warden at Harian on the Solomon river. Two men who used ice to advantage are Pat Egan and Charles Erdman, of this city.

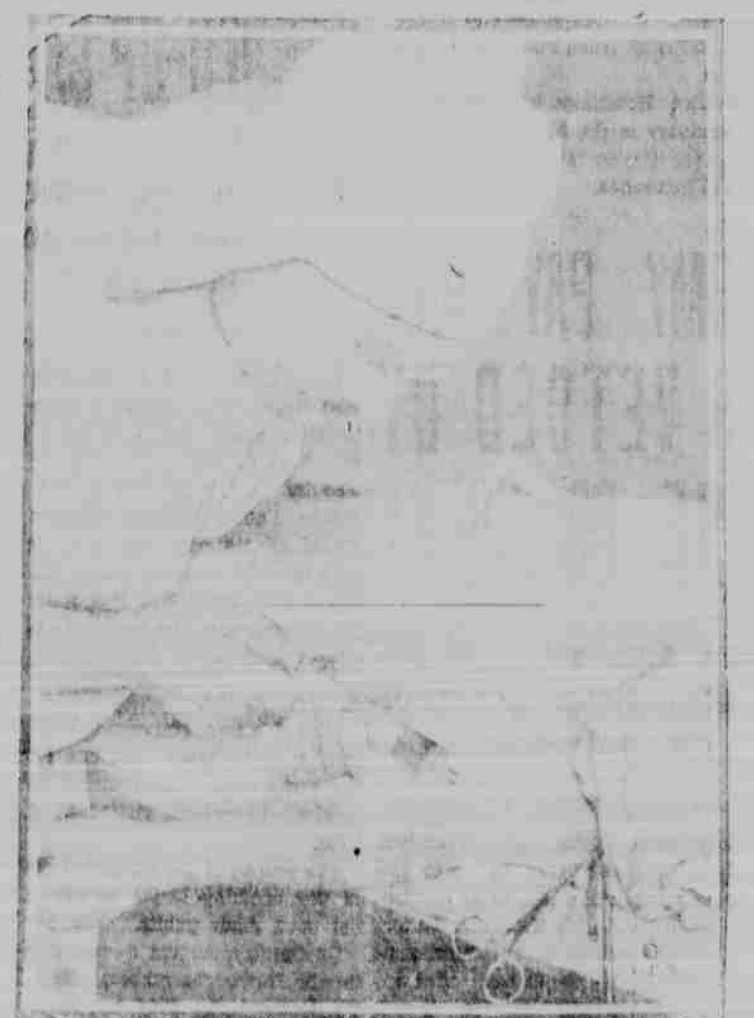

As is known to every good angler, fish are attracted from long distances by a cool spot in the water, and once there bite freely. Knowing this, Egan and Erdman hit upon the scheme of putting ice in the water, anchoring it with ropes tied to a heavy stone. On the first trial they hauled out fish by the dozens, some of them weighing ten pounds. They kept the secret of their success to themselves until they were followed one night and their method discovered. The game warden was notified and he has taken the matter up with the attorney general to see what can be done to quench the practice.

The ice the men used was taken from the city in 200-pound cakes. One cake of it was sufficient to attract the fish for over an hour. Trials were made only at night, and during the long spell of hot weather Mr. Erdman, who runs a large hotel here, was able to have fresh fish on the

## GETTING SERUM FOR INFANTILE PARALYSIS

Scores of men, aroused by the call of the health authorities of New York City for a serum to fight infantile paralysis, which has taken off more than 1,000 children in two months, have offered themselves in New York hospitals. The surgeons draw blood from the arms of those who previously had the disease. From this they make the serum. While they do not

assert that this serum is a specific for the disease, there have been many cases of improvement after its use. This photograph shows the blood being drawn from the vein of a man who offered himself to save the babies. The surgeon, after placing a constricting band about the upper arm to hold the blood, inserted his needle and sucked up blood from a vein.

## BAD CHECKS ARE IN EVIDENCE AS PASTOR FLEES

PREACHER-EDITOR DUPES HIS FLOCK AND LEAVES PASTORATE IN LURCH

Severance, Kan., Aug. 18.—This community is stirred by the departure of the Rev. Andrew J. Pirle, pastor of the Christian churches at Severance and Sparks, and former editor and owner of the Severance News. He is said to have left behind a string of notes, bad checks, debts and mortgages in the hands of relatives, parishioners and friends.

It was on August 8, that Pirle, known as one of the leading evangelists and church builders of northern Kansas, left with Mrs. Pirle and their two children saying they were going to the Wathena chautauqua. Nothing more was heard of them until within the last two or three days. Then mortgages, notes and checks showed up. To top it off two members of the Rev. Mr. Pirle's church say they have received letters from him, dated at Kansas City.

Sends Wife to Canada.

In the letters, it is reported, the minister explains that he is sending his wife and children to Canada and that he will remain in Kansas City and go to work. He suggests that if there is a desire to clear up his debts, his household furniture might be attached. This was needless advice. Even before the letters came three or four attachments had been run on the furniture. It is worth about \$300.

The "ford car which Pirle drove when he left this country was the product of a deal in St. Joseph only a few days before. The car was a second hand machine and was secured with a \$65 check, said to be worthless. At about the same time he sold a team of ponies to Ben Jones, Hawortha horse buyer, for \$130. Now it has been discovered, it is alleged, that they were mortgaged to J. A. Campbell of Severance, for \$90.

Community Loses \$2,500.—?

It is believed that the full loss in the community as a result of Pirle's departure and previous dealings will be somewhere between \$1,800 and \$2,500.

Pirle came to Severance late in 1913, when he was sent here to rejuvenate the Christian church, which then had only ten or a dozen active members. Now it has over 200 members and a new church building, costing close to \$10,000. To the evangelistic labors of Pirle and later to his work as an organizer and builder the credit has been given. When he organized the church at Sparks and put up a new \$2,500 church, his reputation as preacher and evangelist spread. He has also held pastorates at Edwardsville, Lansing, Morrow and Powhattan, Kan. and at Farley, Mo.

Into Newspaper Business.

On July 19 of last year, 1915, he branched out in the newspaper business, spending the work days as editor and manager of the Severance News and Sundays in the work with his two churches. The paper was purchased from Pat Gray and soon increased from two to six pages of home print. Last spring Pirle disposed of it and has since been spending his time in church and evangelistic work.

Constipation and Indigestion.

"I have used Chamberlain's Tablets and must say they are the best I have ever used for constipation and indigestion. My wife also used them for indigestion and they did her good," writes Eugene S. Chicago, Ill., Aug. 18.—Bakers thru out the country are preparing to act concertedly in advancing the price of a 5c loaf of bread to 6c, according to Paul Schultze, head of one of Chicago's largest baking concerns, today. The advance may come within two weeks, he said.

"If flour prices remain at their present high figures, and I fear they will go higher, it will be impossible for bakers to sell the small-sized loaf for 5c," Mr. Schultze said. "We are already confronted with the necessity of raising the price to 6c."
